Browser Compatibility

Automated testing

I used <https://autoprefixer.github.io/> to make sure I have all necessary browser prefixes in my css.

Manual testing

I tested on safari (desktop) and chrome (see user tests below).

Responsiveness / user testing

Manual testing

On google Chrome I tested all pages using the toggle device toolbar for:

- Galaxy S5
- Nexus 5X
- Iphone 5
- Iphone 6
- Iphone 6Plus
- Ipad
- Ipad Pro
- And Desktop with several random sizes : 1000px X 572px, 1600px X 800px

Specifically I systematically tested the following:
